

IT Governance announces 30% discount on ISO27001 ISMS Lead Implementer classroom training course in Washington, DC

WYOMING, MARYLAND, UNITED STATES, October 2, 2017 /EINPresswire.com/ -- IT Governance Ltd, the leading global ISO 27001 and information security training service provider, is offering a 30% discount on the [ISO27001 Certified ISMS Lead Implementer classroom training course](#) taking place on October 12–13, 2017 in Washington, DC.

Alan Calder, founder and executive chairman of IT Governance, said: “This is a unique opportunity for DC-based information security professionals or those attracted by roles such as chief information security officer (CISO), chief information officer (CIO), certified information security manager, or lead implementer to learn from real-world practitioners about all the key steps involved in planning, implementing, and maintaining an ISO 27001-compliant information security management system (ISMS).

“Effective compliance and implementation strongly depends on employing people who are certified by professional certification bodies. Organizations should recognize the benefits of accredited training and the opportunity to develop the skills and the competencies needed to advise on industry-proven practices in information security management.”

Delivered by cybersecurity expert Alan Calder, the fully accredited ISO27001 Certified ISMS Lead Implementer (CIS LI) training course is designed to deliver a comprehensive understanding of ISO 27001, the best-practice standard for ISMSs, and equip professionals with the skills to lead an ISO 27001 ISMS implementation project.

The classroom course is a two-day accelerated version of the ISO27001 Certified ISMS Lead Implementer training course, and takes place at the Hilton Rockville Hotel. The course is delivered as part of the Certified InfoSec Conference +27K Security Summit and delegates can take advantage of this training opportunity to [book the five-day ticket](#) to attend the conference on October 9–13, 2017.

The course is designed to equip professionals with the practical skills needed to carry out an information security risk assessment, develop the core documentation, policies and procedures for the project, review and map controls, educate staff and provide general awareness training, manage and drive continual improvement, and prepare for an ISO 27001 certification audit.

Designed by the team who led the world's first ISO 27001 implementation project, the course improves professional development and helps individuals build a career path by awarding delegates who pass the course exam the ISO 17024-accredited CIS LI qualification by IBITGQ.

To book your place on IT Governance's ISO27001 Certified ISMS Lead Implementer classroom training course, please visit the [website](#), email servicecenter@itgovernanceusa.com, or call (877) 317-3454.
