

# GlobalShopex Launches FD LABS into the Cross Border E-commerce Market

*Cutting edge innovator of smoking tools begins selling internationally using GlobalShopex's international shipping solution.*

MIAMI, FL, UNITED STATES, October 4, 2017 /EINPresswire.com/ -- FD Labs is focused on creating innovative products in the smoking industry. Their first product, RollBud, has accumulated millions of views on social media and has taken both the US and international market by storm. By enabling GlobalShopex's international shipping solution on their Shopify e-commerce store, they can now accept international orders and ship to clients in more than 200 countries and territories around the world. GlobalShopex's IFrame solution allows FD Lab's international customers to purchase in their local currency and pre-pay duties and taxes upfront at the time of purchase ensuring a seamless global transaction. GlobalShopex manages all aspects of order fulfillment, including fraud screening, payment processing and international shipping, as well as taking on 100% financial responsibility for fraudulent orders and credit card charge backs.

"Our first product, RollBud, has generated a great amount of interest from the international smoking community," says Cam Stevens, Chief Marketing Officer & Co-Founder of FD Labs. "Our understanding of the market has allowed us to pinpoint the problems that hinder smokers, and create products that provide optimal solutions to these problems. RollBud, for example, solves the majority of issues that smokers face when "rolling up" and smoking herbs on-the-go. Most smokers are active and productive people; sometimes rolling up and smoking within the confines of your home isn't an option. RollBud provides a portable solution that allows you to carry all of your materials in a safe, discreet, and organized fashion. If our product gives our users the freedom to "roll up" anywhere in the world, then why shouldn't we allow anyone in the world to order and receive it? Until now, we've never had an easy way for our international customers to order. We're beyond happy to now offer an easy solution for them through GlobalShopex. We've been particularly impressed with the quick integration, seamless order fulfillment service, and customer support. Now our international customers will be able to calculate all of their costs upfront, order directly to their international location, and enjoy our products worldwide."

"We are thrilled to help FD Labs expand their footprint to customers outside of the US," says Scott Epstein, Business Development Director of GlobalShopex. "It is great to partner with a company whose mission is to make people happy and we are glad to be a part of bringing these products to those who can enjoy them around the world."

## About GlobalShopex:

GlobalShopex is a leading provider of international e-commerce solutions for US-based online retail operators, providing cost effective solutions for retailers to enter the business to consumer (B2C) international e-commerce market. GlobalShopex's integrations allow the international customer to seamlessly checkout on the merchant's websites and ship worldwide. GlobalShopex handles the international checkout, taking on 100% risk of fraud and chargebacks and provides a total landed cost in local currency, international payment processing, customer service in multiple languages, and international shipping on behalf of its retail clients.
