

# Mountz Exhibiting at the Assembly Show 2017

*Mountz, Inc., a specialist in the design and manufacturing of torque control products, will be exhibiting at the Assembly Show 2017 event.*

SAN JOSE, CA, USA, October 6, 2017 /EINPresswire.com/ -- [Mountz, Inc.](#), a specialist in the design and manufacturing of torque control products, will be exhibiting at the [Assembly Show 2017](#) event. The exhibition is at the Donald E. Stephens Convention Center in Rosemont, IL and takes place October 24th through the 26th. Mountz will be displaying the latest assembly automation tools and torque measuring equipment.

Discover [new assembly solutions](#) developed for engineers in order to deal with the most demanding fastening applications. Since 1965, Mountz Inc. has proven its in-depth knowledge of torque and fastening solutions. Mountz will showcase many new products and solutions at the Assembly Show event.

- DC Control Tools
- Automation & Robotics
- Torque Measurement & Calibration Equipment
- Position Control Torque Arms
- Next Generation Preset Torque Screwdrivers
- Award Winning Click wrenches

Using a quality torque tool makes a safer world through accuracy and precision. Controlling torque is essential for companies to ensure their product's quality, safety and reliability isn't compromised. The failure of a three-cent fastener that isn't properly tightened can lead to catastrophic or latent failures. Fasteners that are insufficiently fastened can vibrate loose and excessive torque can strip threaded fasteners.

The ASSEMBLY Show is sponsored by ASSEMBLY, a monthly trade magazine read by 56,000 engineers and managers responsible for manufacturing and designing cars, computers, catheters, coffee makers, etc. ASSEMBLY covers the processes, technologies and strategies for joining discrete parts into finished products. The event is produced by BNP Media, one of the country's leading business-to-business media companies serving professionals across 50+ industries.
