

# VironIT Software Development Company Ranked Among the World's Top 50 IT blogs on Feedspot.com

*Feedspot.com featured Vironit's blog in World Top 50 Must-Read Blogs ahead of the thousands of Software Development blogs using search and social metrics.*

SAN FRANCISCO, CALIFORNIA, USA,  
October 9, 2017 /EINPresswire.com/ --

The [VironIT](#)'s blog was ranked by Feedspot.com among the World's Top 50 IT Must-Read Blogs. The initiative by Feedspot.com is the most up-to-date and comprehensive list of best Software Development blogs on the Internet. The noteworthy blogs were selected on the basis of following criteria:

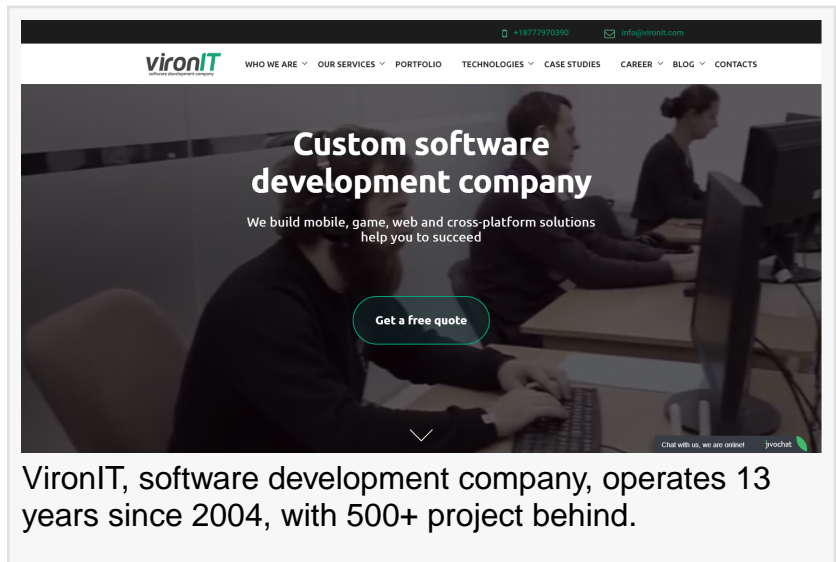

- Google reputation and Google search ranking,
- Influence and popularity on social media sites(including Facebook, Twitter and other),
- Quality and consistency of posts,
- Feedspot's editorial team and expert review.

VironIT has created a blog on everything related to custom software development and best practices in software engineering. It has become a vibrant ecosystem for company's engineers, developers, strategists and writers to share their software development insights with the world. [VironIT's blog](#) is the place to find both in-depth development tutorials and new technology trends around Back End, Front End, Mobile and Game Development, VR, AR, Blockchain, Agile Project Management and more.

The blog has earned the trust of software development professionals all around the industry as its pieces invariably offer experience-driven insight, advice and guidance to the audience. This is a perfect destination for those who are looking for a place to broaden their knowledge of software development or just wandering around for some tips and tricks. The blog now has around 160 pieces with 4-6 of new posts coming out every month.

Since 2004, VironIT, an IT Software Development Company, has been delivering full-cycle software development services to customers in over 30 countries worldwide. VironIT is an expert in development, customization and integration of complex enterprise-level solutions, advanced web and mobile applications offering a well-balanced blend of technology skills, domain knowledge, wide experience and effective methodology.

VironIT has successfully proven its worth applying the most cutting-edge technology to produce remarkable Virtual Reality, Augmented Reality and Internet of Things projects for their clients. The

The screenshot shows the VironIT website homepage. At the top, there is a navigation menu with links for 'WHO WE ARE', 'OUR SERVICES', 'PORTFOLIO', 'TECHNOLOGIES', 'CASE STUDIES', 'CAREER', 'BLOG', and 'CONTACTS'. The main content area features a large image of people working at computers. Overlaid on this image is the text: 'Custom software development company', 'We build mobile, game, web and cross-platform solutions help you to succeed', and a 'Get a free quote' button. At the bottom of the image, there is a small chat bubble that says 'Chat with us, we are online!' and a 'Product' link.

VironIT, software development company, operates 13 years since 2004, with 500+ project behind.

company has had a track record of project delivered on time and budget due to their rigorous adherence to the Agile, RUP and Waterfall project management methodologies.
