Summary

The manufacturing plants category covers the construction of facilities used for the production of industrial, consumer and technology products, including industrial equipment, automobiles, textiles, food & drink, plastic & paper products and semiconductors. This category includes, but is not limited to, assembly plants, canneries, food processing plants, printing plants, semiconductor plants and textile mills. It excludes facilities included in the chemical & pharmaceutical plants, refinery buildings and metal and material processing plant categories.

The South African manufacturing plants construction category has observed some fluctuations in the review period with a value of ZARxxx.xx million (US\$xxx.xx Million) in 2016 and increased at a rate of x.xx% over 2015. The market recorded a CARC of -x.xx% from 2012 through 2016.

"Manufacturing Plants (Construction) in South Africa: Market Analytics by Category & Cost Type to 2021" provides a top-level overview and detailed insight into the operating environment of the manufacturing plants market in South Africa. It is an essential tool for companies active across the South Africa construction value chain and for new players considering to enter the market.

Scope

- A top level overview of the manufacturing plants construction category in South Africa.
- Historic data provided from 2012 through 2016 and forecast from 2017 through 2021.
- A detailed breakdown of the data by construction activity (new construction, repair and maintenance, refurbishment and demolition) and by cost type (construction materials, construction equipment & construction services) across the manufacturing plants market.

Reasons to Buy

- Provides a top level understanding of the Manufacturing Plants [construction in South Africa](#).
- Helps you understand the market performance by construction activity (new construction, repair and maintenance, refurbishment and demolition) and construction cost type (construction materials, construction equipment & construction services).
- Allows you to plan future business decisions using the forecast figures given.
- The broad but detailed perspective will help all the players in the construction activity to understand and succeed in the challenging construction market.

Table of Content: Key Points

1 Introduction

1.1 What is this Report About?

1.2 Definitions

1.3 CAGR Definition and Calculation

2 Overall Manufacturing Plants construction: Market Analysis

2.1 Overall Manufacturing Plants construction Output Value, 2012 - 2016

2.2 Overall Manufacturing Plants construction Output Value Forecast, 2017 - 2021

2.3 Overall Manufacturing Plants construction Output, by Cost Type

2.3.1 Overall Manufacturing Plants construction Output, by Cost Type, 2012 - 2016

2.3.2 Overall Manufacturing Plants construction Output Forecast, by Cost Type, 2017 - 2021

3 Manufacturing Plants construction Output: Analysis by Category

3.1 New Construction Output Value, 2012 - 2016

3.2 New Construction Output Value Forecast, 2017 - 2021

3.3 New Construction Output Value by Cost Type

3.3.1 New Construction Output, by Cost type, 2012 - 2016

3.3.2 New Construction Output Forecast, by Cost Type, 2017 - 2021

3.4 Repair & Maintenance Output Value, 2012 - 2016

3.5 Repair & Maintenance Output value Forecast, 2017 - 2021

3.6 Repair & Maintenance Output, by Cost Type

3.6.1 Repair & Maintenance Output, by Cost type, 2012 - 2016

3.6.2 Repair & Maintenance Output Forecast, by Cost Type, 2017 - 2021

3.7 Refurbishment Construction Output Value, 2012 – 2016

...Continued
