

PCS EDVENTURES ANNOUNCES \$800,000 MIDDLE EAST PROJECT

PCS Edventures! Continues International STEM Education Initiatives

BOISE, IDAHO, UNITED STATES, October 11, 2017 /EINPresswire.com/ -- Boise, Idaho, October 11, 2017 — PCS Edventures!.com, Inc., (PCSV) a leading provider of K-12 Science, Technology,

Engineering and Mathematics (STEM) programs, today announced a new contract valued in excess of \$800,000 has been secured for delivering STEM education materials to a client in the Middle East.

I firmly believe the future success of this company will be determined on how well we execute the Scholastic Racing Series and other new products similar to the Discover Drones STEM initiative.”

Todd Hackett, CEO PCS Edventures!

PCS Edventures! has been conducting business in the Middle East for over a decade, and since 2013 has secured contracts, including this one, valued in excess of \$3.5MM. These contracts have provided services and products ranging from teacher training and curriculum design to the outfitting and support of mobile STEM outreach programs. Robert Grover, Executive Vice President at PCS Edventures! said, “Our unique, hands-on approach to engaging students in STEM topics has been very well received in the Middle East,

and we look forward to successfully delivering this new contract. This latest contract includes the fulfillment of a number of STEM project supplies required for curriculum we designed and produced over the past few years.”

Notably, it was a curriculum development contract in the Middle East that initiated research and development into the use of drones for advanced robotics activities with students. This ultimately led to the [Discover Drones](#) program and the rapidly growing Scholastic Drone Racing Series initiative that PCS Edventures! is scaling nationwide with partners [MultiGP](#) and the [Idaho Technology Student Association](#).

Todd Hackett, PCS Edventures! CEO said “Over the past few years we have built some decent revenues from our STEM education business in the Middle East and are very happy to announce this latest contract. To our shareholders, I want to emphasize our core company focus is continuing to grow our cutting-edge drone education program. I firmly believe the future success of this company will be determined on how well we execute the Scholastic Racing Series and other new products similar to the Discover Drones STEM initiative.”
