Universal Trailer Management Software at the 27th NTDA Annual Convention

Ponte Vedra Beach, Florida will be a mix of sun, sea, and software this week as Universal Trailer Management Software participates in NTDA Annual Conference.

PONTE VEDRA BEACH, FL, USA, October 11, 2017 /EINPresswire.com/ -- Universal Container & Trailer Management Software will be featured at the National Trailer Dealer's Association 27th Annual Convention in Ponte Vedra Beach, Florida being held October 11=13, 2017.

"We are excited to share our newest version with existing clients as well as those companies considering a more streamlined, integrated approach to their operation," stated Arleen Coletti, Vice President of Sales for UAS. The company behind the product, Universal Accounting Software, Inc., was founded 27 years ago and is headquartered 5 miles outside of Manhattan in Edgewater, NJ, with over 1,500 users on 4 continents.

National Trailer Dealers Association

"From our inception, our objective has been to develop targeted vertical industry solutions that solve the most time-consuming areas of pain for our clients while eliminating the need for a separate third-party software package for accounting", said founder and Chief Technology Officer, Raza Malik. This approach has been a success formula for UAS, as clients welcome the concept of one centralized source for software as well as ongoing support services.

For the trailer industry, Universal has focused on complete trailer specifications and detailed timeline information for each trailer or container, from purchase through every rental, lease, service, and repair to unit sale. The newly-released version includes enhanced bulk trailer upload functions, easier PCI-compliant credit card processing for batch billing, new report options, two new monthly billing add-on options and more.

"The NTDA Convention is such a great venue for us to connect with trailer industry professionals so that we can really understand their challenges and brainstorm new ways to help them achieve greater success," stated Coletti.

Universal Container & Trailer Software is available as a client/server version and as a cloud application hosted on Microsoft Azure for a safe, secure hosted environment.
