About Modular Kitchen

A modular kitchen uses modern kitchen furniture and cabinet modules that are made from different materials. These cabinets can store several kitchen accessories and items, which helps in effective optimization of space in the kitchen. The units that are usually placed on the floor are called floor cabinets or floor units. They are usually manufactured from marble, granite, tiles, and wood that are laid in an orderly manner to create space for different storage purposes.

Technavio's analysts forecast the global modular kitchen market to grow at a CAGR of 4.63% during the period 2017-2021.
