

# Increasing Demand for CCTV and Video Surveillance Systems to Impel the Growth of Electronic Security Market in Future

*Increasing Demand for CCTV and Video Surveillance Systems to Impel the Growth of Electronic Security Market in Future, According to Research Nester.*

BROOKLYN, 11230, UNITED STATES, October 13, 2017 /EINPresswire.com/ -- The global electronic security market is segmented into product type such as video surveillance systems, intrusion alarm systems, fire alarm systems, access control systems, IP and analog CCTV, electronic article surveillance and detection systems, electrified door hardware, hybrid video recorder and network video recorder. Among these segments, CCTV segment is expected to

occupy the top position in the market. The rise in the CCTV segment is backed by its increasing utilization in newly constructed buildings and offices. Moreover, rising safety & security concerns among the population is anticipated to foster the demand for CCTV during the forecast period. Global electronic security market is expected to register a 13.7% CAGR over the forecast period. Moreover, the global electronic security market is expected to garner USD 133.7 Billion by the end of 2024. The market is expected to expand on the back of surging adoption of safety and surveillance systems by commercial establishments and government agencies.

The commercial segment by application is estimated to register an exponential CAGR during the forecast period. Moreover, the commercial segment is expected to account for the largest share of revenue across the globe. Factors such as increasing crimes at commercial places have triggered the demand for electronic security systems at public places such as city centers, educational institutes and others. Further, growth in terrorism activities at public places is anticipated to substantially grow the market of the commercial electronic security.

**Rapid Urbanization in Developing Nations**

Factors such as construction of new buildings across the globe are anticipated to drive the growth of the electronic security market. Further, increasing crimes such as robberies, burglaries and other such crimes at public places are expected to significantly impact the growth of the electronic security market. Moreover, construction of smart cities in developing nations is expected to uplift the demand for electronic security products.
