### Market

Recent research indicates that the cannabis industry has been growing steadily and rapidly since the passage of laws allowing the distribution of marijuana. According to Oakland based marijuana angel investment network, The ArcView Group (Executive Summary, 5th Edition), national legal sales for 2016 grew to \$6.7 billion from \$5 billion in 2015, fueled by explosive growth in adult use market sales. The growth continues a robust pattern that ArcView estimates will lead to a \$22.6 billion market in 2021 at a 27% compound annual growth rate.

In November 2016, a new set of regulations paved the way for a recreational marijuana market in Nevada. The State of Nevada began recreational sales on July 1, 2017, which is expected to register a compound annual growth rate of 42% over the next five years thus adding up to \$433 million in sales annually by 2021. The evolving legal environment combined with changing public attitudes are all factors contributing to a perfect storm to cultivate industry growth.
