[Subsea Thermal Insulation Materials Market Analysis And Forecast](#)

About Subsea Thermal Insulation Materials

Subsea thermal insulation materials are used to resist heat transfer. The global insulation market was valued at \$673.6 billion in 2016. Insulation materials are used in various applications such as construction, industrial, and oil and gas. Subsea thermal insulation is a protective coating applied to components subjected to cold deep-water immersion. When the subsea temperature of pipelines or equipment or joints drop below the hydrate appearance temperature (HAT) and wax appearance temperature (WAT), it clogs the pipeline.

Technavio's analysts forecast the global subsea thermal insulation materials market to grow at a CAGR of 4.63% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global subsea thermal insulation materials market for 2017-2021. The report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Technavio's report, Global Subsea Thermal Insulation Materials Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- BASF
- Dow Corning

Wise.Guy.

- SHAWCOR
- The Dow Chemical
- Trelleborg

Other prominent vendors

- Advanced Insulation
- Aegion
- AFGlobal
- Aspen Aerogels
- Balmoral Group
- Cabot
- Engineered Syntactic Systems
- TechnipFMC
- Materia
- Tenaris

Market driver

- Growing offshore exploration and production activities
- For a full, detailed list, view our report

Market challenge

- Volatility in crude oil prices
- For a full, detailed list, view our report

Market trend

- Increasing demand for mobile production unit (MPU)
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

You can request one free hour of our analyst's time when you purchase this market report. Details are provided within the report.

Table Of Contents

- PART 01: Executive summary
- PART 02: Scope of the report
- PART 03: Research Methodology
- PART 04: Introduction
 - Market outline
- PART 05: Market landscape
 - Market size and forecast
 - Five forces analysis
- PART 06: Market segmentation by type

- Overview: Global subsea thermal insulation materials market by type
- PART 07: Market segmentation by application
- Overview: Global subsea thermal insulation materials market by application
 - Global subsea thermal insulation materials market for wet application
 - Global subsea thermal insulation materials market for dry application
- PART 08: Geographical segmentation
- Overview: Global subsea thermal insulation materials market by geography
 - Subsea thermal insulation materials market in EMEA
 - Subsea thermal insulation materials market in Americas
 - Subsea thermal insulation materials market in APAC
- PART 09: Decision framework
- PART 10: Drivers and challenges
- Market drivers
 - Market challenges
- PART 11: Market trends
- Increasing demand for mobile production unit (MPU)
 - New discoveries of potential reserves
 - Bio-refineries: The future of petroleum
- PART 12: Vendor landscape
- Competitive scenario
 - Key market vendors
 - Other prominent vendors
- PART 13: Key vendor analysis
- BASF
 - Dow Corning
 - SHAWCOR
 - The Dow Chemical Company
 - Trelleborg
- PART 14: Appendix
- List of abbreviations
- List of Exhibits
