

Wireless Temperature Monitoring 2017 Global Market Expected to Grow at CAGR of 4.22% and Forecast to 2021

Wiseguyreports.Com Publish New Research Report On -"Wireless Temperature Monitoring 2017 Global Market Expected to Grow at CAGR of 4.22% and Forecast to 2021"

PUNE, INDIA, October 20, 2017
/EINPresswire.com/ --

[Wireless Temperature Monitoring Market 2017](#)

Wireless temperature monitoring system is a monitoring system that tracks and records temperatures for a defined area. These monitoring solutions come with a wide range of temperature sensors, humidity sensors, Wi-Fi sensors, and data logger. The monitoring system is connected to cloud computing, which enables data access from anywhere using a web browser. Parameters can be defined and fed to the system, which will be monitored meticulously and deviations will be notified. Thus, these systems help in complex monitoring of temperature-sensitive areas.

The analysts forecast the global wireless temperature monitoring market to grow at a CAGR of 4.22% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global wireless temperature monitoring market for 2017-2021. To calculate the market size, the report considers the demand for the wireless temperature monitoring systems.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Wireless Temperature Monitoring Market 2017-2021, has been prepared

based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Emerson
- IMC
- Thermo Fisher Scientific
- SensoScientific

Other prominent vendors

- Kelsius
- Honeywell International
- Cooper-Atkins Corporation
- DeltaTrak
- imec Messtechnik
- Fluke

Market driver

- Increase in number of data centers
- For a full, detailed list, view our report

Market challenge

- High cost of maintenance
- For a full, detailed list, view our report

Market trend

- Increasing demand for organic food
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by end-user

- Market Overview
- Commercial
- Pharmaceutical
- Food and Beverage
- Electronics
- Oil and gas

PART 07: Geographical segmentation

- Market Overview
- APAC
- Americas
- EMEA

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Increasing demand for organic food
- Growing use of semiconductors
- Growth in cleanroom market

PART 11: Vendor landscape

.....Continued
