## [Floor Scrubber Battery Market 2017](#)

Floor scrubber batteries are specially made for floor scrubbing applications. Floor scrubbers are used for cleaning purposes to quickly dry, clean, and sanitize the surfaces. Floor scrubber batteries are mostly deep-cycle lead-acid batteries. However, major floor scrubber vendors are switching from traditional deep-cycle lead-acid batteries to Li-ion batteries, owing to the higher energy density and lower power duration of the latter. These advantages allow floor scrubbers to run for a longer time with less charging.

The analysts forecast the global floor scrubber battery market to grow at a CAGR of 7.80% during the period 2017-2021.
