

Laboratory Automation Workcells 2017 Global Market Expected to Grow at CAGR of 6.93% and Forecast to 2021

Wiseguyreports.Com Publish New Research Report On -"Laboratory Automation Workcells 2017 Global Market Expected to Grow at CAGR of 6.93% and Forecast to 2021"

PUNE, INDIA, October 20, 2017
/EINPresswire.com/ --

[Laboratory Automation Workcells Market 2017](#)

Automation workcells are special integrated systems in laboratories. These systems improve efficiency, reduce operational cost and time, minimize manpower involvement, and track the process from end-to-end with a single point entry and a disposal exit. The entire process of testing, verification, routing, scheduling, and disposal is all done within the system without any external operation. Automation workcells are available as both standardized products/off-shelf version and customized solutions to address different end-user requirements.

The analysts forecast the global laboratory automation workcells market to grow at a CAGR of 6.93% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global laboratory automation workcells market for 2017-2021. To calculate the market size, the report considers new installations, retrofits, replacements, and aftermarket services.

The market is divided into the following segments based on geography:

- Americas
- APAC

- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/1751425-global-laboratory-automation-workcells-market-2017-2021>

The report, Global Laboratory Automation Workcells Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Peak Analysis & Automation
- Siemens
- Beckman Coulter
- Hudson Robotics
- Inpeco

Other prominent vendors

- A&T
- Roche
- Thermo Fisher Scientific
- Aim Lab Automation Technologies
- SARSTEDT
- Yaskawa Motoman
- Transcriptic
- Biosero
- Let's Go Robotics
- Festo

Market driver

- Need for environmental controls in laboratories
- For a full, detailed list, view our report

Market challenge

- Increasing need for ergonomic automated workcells
- For a full, detailed list, view our report

Market trend

- Increased use of cell-based assay
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Complete Report Details@ <https://www.wiseguyreports.com/reports/1751425-global-laboratory-automation-workcells-market-2017-2021>

Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by integration type

- Market overview
- Global laboratory automation workcells market by off-shelf automation workcells
- Global laboratory automation market by customized automation workcells

PART 07: Market segmentation by solutions

- Market overview
- Global laboratory automation workcells market by hardware and software solutions
- Global laboratory automation workcells market by services

PART 08: Geographical segmentation

- Market overview
- Laboratory automation workcells market in Americas
- Laboratory automation workcells market in EMEA
- Laboratory automation workcells market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Emergence of laboratory automation control interface
- Increased use of cell-based assay
- Rise in implementation of IoT in laboratories

PART 12: Vendor landscape

.....Continued
