

Solar Photovoltaic (PV) in United States Market 2017- Develop Strategies Based on the Latest Regulatory Events 2030

PUNE, MAHARASHTRA, INDIA, October 20, 2017 /EINPresswire.com/ --

SUMMARY

WiseGuyReports published new report, titled "Solar Photovoltaic (PV) in United States, Market Outlook"

"Solar Photovoltaic (PV) in United States, Market Outlook to 2030, Update 2017 - Capacity, Generation, Levelized Cost of Energy (LCOE), Investment Trends, Regulations and Company Profiles" is the latest report from the industry analysis specialists that offer comprehensive information and understanding of the Solar Photovoltaic (PV) market in United States.

The report provides in depth analysis on global renewable power market and global Solar Photovoltaic (PV) market with forecasts up to 2030. The report analyzes the power market scenario in United States (includes conventional thermal, nuclear, large hydro and renewable energy sources) and provides future outlook with forecasts up to 2030. The research details renewable power market outlook in the country (includes hydro, small hydro, biopower and Solar Photovoltaic (PV)) and provides forecasts up to 2030. The report highlights installed capacity and power generation trends from 2006 to 2030 in United States Solar Photovoltaic (PV) market. A detailed coverage of renewable energy policy framework governing the market with specific policies pertaining to Solar Photovoltaic (PV) is provided in the report. The research also provides company snapshots of some of the major market participants. The report is built using data and information sourced from proprietary databases, secondary research and in-house analysis by team of industry experts.

Scope

The report analyses global renewable power market, global Solar Photovoltaic (PV) market, United States power market, United States renewable power market and United States Solar Photovoltaic (PV) market. The scope of the research includes -

- A brief introduction on global carbon emissions and global primary energy consumption.
- An overview on global renewable power market, highlighting installed capacity trends, generation trends and installed capacity split by various renewable power sources. The

information is covered for the historical period 2006-2016 (unless specified) and forecast period 2017-2030.

- Renewable power sources include wind (both onshore and offshore), Solar Photovoltaic (PV), concentrated solar power (CSP), small hydro power (SHP), biomass, biogas and geothermal.
- Detailed overview of the global Solar Photovoltaic (PV) market with installed capacity and generation trends, installed capacity split by major Solar Photovoltaic (PV) power countries in 2016 and key owners information of various regions.
- Power market scenario in United States and provides detailed market overview, installed capacity and power generation trends by various fuel types (includes thermal conventional, nuclear, large hydro and renewable energy sources) with forecasts up to 2030.
- An overview on United States renewable power market, highlighting installed capacity trends (2006-2030), generation trends(2006-2030) and installed capacity split by various renewable power sources in 2016.
- Detailed overview of United States Solar Photovoltaic (PV) market with installed capacity and generation trends and major active and upcoming Solar Photovoltaic (PV) projects.
- Deal analysis of United States Solar Photovoltaic (PV) market. Deals are analyzed on the basis of mergers, acquisitions, partnership, asset finance, debt offering, equity offering, private equity (PE) and venture capitalists (VC).
- Key policies and regulatory framework supporting the development of renewable power sources in general and Solar Photovoltaic (PV) in particular.
- Company snapshots of some of the major market participants in the country.

Key points to buy

- The report will enhance your decision making capability in a more rapid and time sensitive manner.
- Identify key growth and investment opportunities in United States Solar Photovoltaic (PV) market.
- Facilitate decision-making based on strong historic and forecast data for Solar Photovoltaic (PV) market.
- Position yourself to gain the maximum advantage of the industry's growth potential.
- Develop strategies based on the latest regulatory events.
- Identify key partners and business development avenues.
- Understand and respond to your competitors' business structure, strategy and prospects.

Table of Contents

1	Table of Contents
2	Executive Summary
3	Introduction
4	Renewable Power Market, Global, 2006 – 2030
5	Solar Photovoltaic (PV) Market, Global, 2006-2030
6	Power Market, United States, 2006-2030
7	Renewable Power Market, United States, 2006-2030
8	Solar Photovoltaic (PV) Market, United States, 2006-2030
9	Power Market, Regulatory Scenario, United States
10	Solar Photovoltaic (PV) Market, United States, Company Profiles
11	Appendix
