

VMUG Announces Tech Superstar Lineup for Upcoming Cincinnati UserCon

The event will include a keynote presentation by Cameron Haight, VMware Vice President & Chief Technology Officer, Americas and sessions on AWS integration.

CINCINNATI, OH, USA, October 20, 2017 /EINPresswire.com/ -- The VMware User Group (VMUG) is excited to

announce the lineup for the Cincinnati UserCon early next month. The event will include a keynote presentation by Cameron Haight, VMware Vice President & Chief Technology Officer, Americas and sessions on exciting VMware announcements and integrations like Amazon Web Services.

In the lunch keynote, Cameron Haight will discuss VMware's strategy and vision for the future. During VMworld 2017, VMware launched several new products and initiatives to further its support for clients moving to the cloud and beyond. This keynote will review these new offerings and provide an overview of VMware's go-forward market strategy.

A hot topic since the announcement at VMworld, VMware Cloud on AWS will bring their enterprise-class Software-Defined Data Center (SDDC) software to the AWS cloud. Customers will be able to run any application across vSphere-based private, public and hybrid cloud environments. It will be delivered, sold and supported by VMware as an on-demand, elastically scalable service and customers will be able to leverage the global footprint and breadth of services from AWS. This session will provide a technical overview of the VMware Cloud on AWS Service.

There will also be a session that covers what's new in vSphere 6.5. vSphere 6.5 is the latest and greatest version of their industry-leading virtualization platform. This session will feature a panel of customers whom have already upgraded their environments to vSphere 6.5 to share their experiences and answer any questions you may have.

In addition to these speakers, attendees will have the opportunity to interact with vendors, sponsors, and partners in the Exhibit Hall and participate in a variety of other technical sessions from VMware and community experts.

Registration for VMUG UserCon events are open to all members of the tech industry and are free. Visit <http://vmug.com/attend> to view the most up-to-date agenda and register for these must-attend event for VMware users.
