

Drilling and Completion Fluids 2017 Global Market Expected to Grow at CAGR of 6.58% and Forecast to 2021

Wiseguyreports.Com Publish Market Research Report On -"Drilling and Completion Fluids 2017 Global Market Expected to Grow at CAGR of 6.58% and Forecast to 2021"

PUNE, INDIA, October 23, 2017
/EINPresswire.com/ --

[Drilling and Completion Fluids Market 2017](#)

Drilling fluids are primarily composed of bentonite that is mixed in a certain concentration with water or oil, mainly serves the purpose of lubrication and cooling of the drill bit and drill string and transporting the drill cuttings to the surface. Completion fluids are used during well completions in activities such as hydraulic fracturing and well stimulation.

The analysts forecast the global drilling and completion fluids market to grow at a CAGR of 6.58% during the period 2017-2021.

Covered in this report

The report covers the present scenario and the growth prospects of the global drilling and completion fluids market for 2017-2021. To calculate the market size, the report considers the new sales value of drilling and completion fluids used in an oil well and exclude aftermarket and retrofit markets.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

The report, Global Drilling and Completion Fluids Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- General Electric
- Halliburton
- Schlumberger
- TETRA Technologies
- Weatherford

Other prominent vendors

- AES Drilling Fluids
- Akzo Nobel
- Anchor Drilling Fluids
- BASF
- Calumet Specialty Products
- CES Energy Solutions
- ChemSol
- Chevron Phillips Chemical
- CP Kelco
- Drilling Fluids Technology
- Ecolab
- Flotek Industries
- GEO Drilling Fluids
- Gumpro Drilling Fluids
- IMDEX
- Lamberti
- National Oilwell Varco
- Newpark Resources
- Royal Dutch Shell
- Scomi Group
- Stepan
- Tiger Fluids
- Wacker Chemie
- WorkSafeBC

Market driver

- Rise in unconventional oil and gas resources
- For a full, detailed list, view our report

Market challenge

- Decline in investments in upstream sector
- For a full, detailed list, view our report

Market trend

- Supercritical carbon dioxide in shale gas fracking
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

Complete Report Details@ <https://www.wiseguyreports.com/reports/2331658-global-drilling-and-completion-fluids-market-2017-2021>

Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by application

- Global drilling and completion fluids market by application
- Global onshore drilling and completion fluids market
- Global offshore drilling and completion fluids market

PART 07: Market segmentation by base fluid type

- Global drilling and completion fluids market by base fluid type
- Global drilling and completion fluids market by water-based fluids segment
- Global drilling and completion fluids market by oil-based fluids segment
- Global drilling and completion fluids market by synthetic-based fluids segment

PART 08: Geographical segmentation

- Global drilling and completion fluids market by geography
- Drilling and completion fluids market in the Americas
- Drilling and completion fluids market in EMEA
- Drilling and completion fluids market in APAC

PART 09: Decision framework

PART 10: Drivers and challenges

- Market drivers
- Market challenges

PART 11: Market trends

- Supercritical carbon dioxide in shale gas fracking
- Laser drilling technology
- New-generation automated drilling rigs

PART 12: Vendor landscape
