

Global Flexible Pipes Market for Oil and Gas Industry to Grow at CAGR of 3.56% and Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On -"Global Flexible Pipes Market for Oil and Gas Industry to Grow at CAGR of 3.56% and Forecast to 2021"

PUNE, INDIA, October 23, 2017
/EINPresswire.com/ --

[Flexible Pipes Market for Oil and Gas Industry 2017](#)

Flexible pipes are dynamic risers that are connected to subsea production equipment in topside facilities, which permit the flow of oil, gas, and water through them. Flexible pipes are also used on the seabed to tie wells and subsea equipment together. These pipes are largely used in the oil and gas industry, as they have an intrinsic property to reversibly soften on heating and harden on cooling. These pipes also offer distinctive properties, such as high thermal resistance, chemical inertness, superior mechanical properties, corrosion resistance, and excellent adhesion.

The analysts forecast the global flexible pipes market for oil and gas industry to grow at a CAGR of 3.56% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global flexible pipes market for oil and gas industry for 2016-2020. To calculate the market size, the report considers the revenue generated through the sales of flexible pipe products by type such as HDPE, PA, PVDF, and others in the offshore and onshore applications.

The market is divided into the following segments based on geography:

- APAC
- Central and South America
- Europe and Central Asia
- MEA
- North America

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/605435-global-flexible-pipes-market-for-oil-and-gas-industry-2016-2020>

The report, Global Flexible Pipes Market for Oil and Gas Industry 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Airborne Oil & Gas
- General Electric Oil and Gas
- National Oilwell Varco (NOV)
- SoluForce
- Technip

Other prominent vendors

- ContiTech AG
- DeepFlex
- FlexPipe Systems
- FlexSteel Pipeline Technologies
- Prysmian

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?
- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents –Analysis of Key Points

PART 01: Executive summary

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market size and forecast
- Five forces analysis

PART 06: Market segmentation by type

- Global flexible pipes market for oil and gas industry by type
- Global HDPE flexible pipes market for oil and gas industry

- Global PA flexible pipes market for oil and gas industry
- Global PVDF flexible pipes market for oil and gas industry
- Global other flexible pipes market for oil and gas industry

PART 07: Market segmentation by application

- Global flexible pipes market for oil and gas industry by application
- Global offshore flexible pipes market for oil and gas industry
- Global onshore flexible pipes market for oil and gas industry

PART 08: Market segmentation by geography

PART 09: Market drivers

- Acceptance of engineering-grade flexible materials
- Demand for non-corrosive flexible pipes
- Innovations in drilling
- Growth of deepwater drilling activity

PART 10: Impact of drivers

PART 11: Market challenges

- Declining crude oil prices
- Large scale manufacturing of flexible pipes
- Stringent government regulations

PART 12: Impact of drivers and challenges

PART 13: Market trends

- Increasing number of horizontal wells
- Withdrawal of sanctions on Iran
- New discoveries of potential reserves
- Impact of Brexit over offshore oil market

PART 14: Vendor landscape

.....Continued
