

# Paraformaldehyde Market - Global Industry Analysis, Size, Share, Growth, Trends and Forecast 2017 – 2021

*The report provides in depth study of “Paraformaldehyde” using SWOT analysis i.e. Strength, Weakness, Opportunities and Threat to the organization*

PUNE, INDIA, October 24, 2017 /EINPresswire.com/ --

## [Paraformaldehyde Market Analysis And Forecast](#)

### About Paraformaldehyde

An aldehyde is an organic compound containing a functional group, – CHO, with a carbonyl center (a carbon double-bonded to oxygen), the carbon atom also bonded to hydrogen and to an R group (any generic alkyl or side chain). Some examples of aldehydes are ethanal, glucose, formaldehyde, acetaldehyde, and benzaldehyde. Formaldehyde and acetaldehyde are the widely used aldehydes. Paraformaldehyde is obtained by the polymerization of formaldehyde. It is a white crystalline solid. Though it is a soluble alkali, it is insoluble in alcohol, ether, and water. It has the odor of formaldehyde because of decomposition. Paraformaldehyde is generally prepared with purity concentration of 91% or 93% by weight.

Technavio’s analysts forecast the global paraformaldehyde market to grow at a CAGR of 5.96% during the period 2017-2021.

### Covered in this report

The report covers the present scenario and the growth prospects of the global paraformaldehyde market for 2017-2021. The report presents a detailed picture of the market by way of study, synthesis, and summation of data from multiple sources.

The market is divided into the following segments based on geography:

- APAC
- North America
- Europe
- ROW

Technavio's report, Global Paraformaldehyde Market 2017-2021, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Request For Sample Report @ <https://www.wiseguyreports.com/sample-request/2096058-global-paraformaldehyde-market-2017-2021>

#### Key vendors

- Celanese
- Chemanol
- Ercros
- INEOS
- PT. Dover Chemical

#### Other prominent vendors

- Alder
- Alfa Aesar
- Caldic
- Chang Chun Group
- Ekta International
- GFS Chemicals
- Kothari Phytochemicals & Industries
- LCY Group
- NANGTON JIANGTIAN CHEMICALS
- Shouguang Xudong Chemical
- Simalin Chemicals Industries
- Synthite Limited
- OSWAL UDHYOG

#### Market driver

- Increasing demand for agrochemicals
- For a full, detailed list, view our report

#### Market challenge

- Harmful effects of formaldehyde and paraformaldehyde
- For a full, detailed list, view our report

#### Market trend

- Growing demand for resins by the shipping industry
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2021 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

You can request one free hour of our analyst's time when you purchase this market report. Details are provided within the report.

## Table Of Contents

PART 01: Executive summary

PART 02: Scope of the report

PART 03: Research Methodology

PART 04: Introduction

- Market outline

PART 05: Market landscape

- Global paraformaldehyde market
- Five forces analysis

PART 06: Market segmentation by application

- Global paraformaldehyde market by application
- Global paraformaldehyde market in agrochemicals
- Global paraformaldehyde market in resins
- Global paraformaldehyde market in medical applications
- Global paraformaldehyde market in others

PART 07: Geographical segmentation

- Global paraformaldehyde market by geography
- Paraformaldehyde market in APAC
- Paraformaldehyde market in North America
- Paraformaldehyde market in Europe
- Paraformaldehyde market in ROW

PART 08: Decision framework

PART 09: Drivers and challenges

- Market drivers
- Market challenges

PART 10: Market trends

- Increasing demand for thermoset composites
- Growing demand for resins by the shipping industry
- Increasing use of paraformaldehyde as reagents in organic reactions

PART 11: Vendor landscape

- Competitive scenario
- Other prominent vendors

PART 12: Key vendor analysis

- Celanese
- Chemanol
- Ercros
- INEOS
- PT. Dover Chemical

PART 13: Appendix

- List of abbreviations
