Imprivata Acquires Identity and Access Management Business of Caradigm to Expand its Solutions

Imprivata to strengthen Authentication and Access Management Platform for the healthcare enterprise

LEXINGTON, MASS, US, October 24, 2017 /EINPresswire.com/ -- Imprivata, the healthcare IT security company today announced the acquisition of the Identity and Access Management Business of Caradigm. The combination of Imprivata and Caradigm's innovations will advance the proliferation of Identity and Access Management for the healthcare market. In particular, it will accelerate the development of new capabilities that will improve provider productivity while reducing security risks and operational IT cost for hospitals and Integrated Delivery Networks (IDNs) around the globe.

Caradigm provides a range of Identity and Access Management solutions, including Governance, Risk Management and Compliance and Clinical and IT Efficiency solutions such as single sign-on and multi-factor authentication to over 100 healthcare organizations globally.

"We are excited about this acquisition, for the quality of people, solutions, services, and customer base, Imprivata will work closely with Caradigm in the future." said Gus Malezis, president and CEO of Imprivata. "This acquisition will serve as a catalyst in expanding our market reach and our authentication and access management portfolio and allow us to expand our relationship with GE Healthcare."

Caradigm continues to operate as a population health company dedicated to improving patient care, advancing the health of populations and reducing healthcare costs.

"We view Imprivata's acquisition of the Identity and Access Management business as a very positive transition – making both companies stronger. Caradigm will continue with its intense focus on population health management and predictive analytics," said Neal Singh, president and CEO for Caradigm.

About Imprivata
Imprivata®, the healthcare IT security company, provides healthcare organizations globally with a security and identity platform that delivers authentication management, fast access to patient information, secure communications, and positive patient identification. Imprivata enables care providers to securely and efficiently access, communicate, and transact patient health information to address critical compliance and security challenges while improving productivity and the patient experience.
