

Imprivata showcases comprehensive healthcare IT security solution at Ireland Health Innovation Week

Market leading healthcare authentication and access management solution, Imprivata OneSign®, to be demonstrated at eHealth Ireland event EH2030

LONDON, UK, October 25, 2017 /EINPresswire.com/ -- London, UK – 25 October, 2017—[Imprivata®](#), the healthcare IT security company, is demonstrating the latest innovations in single sign-on and authentication management by showcasing their solution, Imprivata OneSign® at eHealth Ireland's premier event EH2030. The market leading solution utilised globally by healthcare organisations, which supports the HSE Electronic Health Records project, decreases log in times and increases clinician satisfaction by eliminating the need to repetitively enter username and passwords. The convenient single sign-on solution drives the adoption of electronic health records through the streamlining of clinical workflows. This secures patient data by eliminating password workarounds, increasing clinician productivity and supporting compliance with NHS standards.

Imprivata is contributing to the eHealth Ireland Ecosystem on the 25th October in Dublin. The event brings together the HSE, the Department of Health, hospital clinicians, nurses, service users, industry leaders, and vendors with the sole aim of advancing integrated care projects within Ireland.

In addition, Imprivata exhibited at the Innovation Showcase on the 23rd October at Dublin Castle together with reseller partner for the region, Triangle Health. The special one-day exhibition highlighted the leading digital and connected technologies that will revolutionise Irish healthcare by 2030. It also demonstrated the progress in the creation of a digital fabric that is transforming the Irish healthcare system. Dr Saif Abed, European Medical Director at Imprivata, is available on the stand to discuss benefits realisation, information governance and policy analysis. Dr Abed has previously worked as a doctor within the NHS and brings this wealth of knowledge and expertise to scenarios where clinical workflow optimisation can increase clinician efficiency by eliminating unnecessary system barriers.

Dr Saif Abed, European Medical Director at Imprivata commented; "Ireland has embarked on a transformational path to radically overhaul healthcare provision to meet the challenge of delivering sustainable high quality care for the entire population. Technology will be a critical component in healthcare reform and Imprivata is excited to be involved in [Health Innovation week](#). The inspiring series of events will showcase breakthroughs in healthcare IT innovation which aligns with the Imprivata ethos of demonstrating the art of the possible."
