

Industrial Lobe Pump 2017 Global Market Expected to Grow at CAGR of 13.58% and Forecast to 2021

Wiseguyreports.Com Publish New Market Research Report On -"Industrial Lobe Pump 2017 Global Market Expected to Grow at CAGR of 13.58% and Forecast to 2021"

PUNE, INDIA, October 25, 2017
/EINPresswire.com/ --

[Industrial Lobe Pump Market 2017](#)

Lobe pumps are categorized as positive displacement pumps, which are used mainly in industrial applications that involve the pumping and lifting of heavy fluids like sludge, slurry, and mud.

Sludge is a semi-solid slurry that is primarily a by-product of sewage from wastewater treatment or may be in the form of a settled suspension from numerous industrial processes. Industrial wastewater is also termed as sludge and is generated from biological or physical processes.

The analysts forecast the global industrial lobe pump market to grow at a CAGR of 13.58% during the period 2016-2020.

Covered in this report

The report covers the present scenario and the growth prospects of the global industrial lobe pump market for 2016-2020.

The market is divided into the following segments based on geography:

- Americas
- APAC
- EMEA

Request a Sample Report @ <https://www.wiseguyreports.com/sample-request/533543-global-industrial-lobe-pump-market-2016-2020>

The report, Global Industrial Lobe Pump Market 2016-2020, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers the market landscape and its growth prospects over the coming years. The report also includes a discussion of the key vendors operating in this market.

Key vendors

- Alfa Laval
- Börger
- Boyser
- GEA Group
- Wright Flow Technologies

Other prominent vendors

- Netzch
- Lobepro
- Viking
- Megator
- Vogelsang

Market driver

- Increasing application of lobe pumps in bio-medical research
- For a full, detailed list, view our report

Market challenge

- High failure rate
- For a full, detailed list, view our report

Market trend

- Chemical industry shifting to non-sanitary lobe pumps
- For a full, detailed list, view our report

Key questions answered in this report

- What will the market size be in 2020 and what will the growth rate be?
- What are the key market trends?
- What is driving this market?
- What are the challenges to market growth?
- Who are the key vendors in this market space?

- What are the market opportunities and threats faced by the key vendors?
- What are the strengths and weaknesses of the key vendors?

Table of Contents –Analysis of Key Points

PART 01: Executive summary

- Highlights

PART 02: Scope of the report

- Market overview
- Top-vendor offerings

PART 03: Market research methodology

- Research methodology
- Economic indicators

PART 04: Introduction

- Key market highlights

PART 05: Market landscape

- Market overview
- Market size and forecast
- Five forces analysis

PART 06: Market drivers

- Increasing application of lobe pumps in bio-medical research
- Lobe pumps replacing cavity pumps in major industries like biofuels
- Integration of VFDs for lobe pumps to act as flow measurement devices

PART 07: Impact of drivers

PART 08: Market challenges

- High failure rate
- Growing importance of eccentric disc pumps in food processing industry

PART 09: Impact of drivers and challenges

PART 10: Market trends

- Chemical industry switching to non-sanitary lobe pumps
- Emergence of new lobe pump designs

PART 11: Market segmentation by end-users

- End-user segmentation
- Global industrial lobe pump market in wastewater treatment industry
- Global industrial lobe pump market in oil and gas industry
- Global industrial lobe pump market in food processing industry

PART 12: Geographical segmentation

- Geographic segmentation
- Industrial lobe pump market in APAC
- Industrial lobe pump market in Americas
- Industrial lobe pump market in EMEA

PART 13: Vendor landscape

.....Continued
