

# OCCAR-EA and NSSLGLOBAL to Deliver Update on Mobile Deployable Communications In Warsaw This February

*OCCAR-EA and NSSLGLOBAL to present at Mobile Deployable Communications Conference*

LONDON, ENGLAND, October 25, 2017 /EINPresswire.com/ -- Event organisers SMi Group are delighted to announce that OCCAR-EA and NSSLGLOBAL will present at the 11th annual [Mobile Deployable Communications](#) conference, in Warsaw on the 1st and 2nd February 2018.

This highly anticipated two-day event will provide a platform to explore innovative technologies and tactics for flexible, protected and interoperable CIS capabilities.

The ESSOR Programme by OCCAR has raised the bar of the new generation tactical communications, paving the way to an interoperable tactical SDR (software defined radio) with a strong European identity.

Fulvio Arreghini, a Technical Specialist for the ESSOR Programme at OCCAR-EA Bonn, and Chedhomme Charles, an ESSOR Commercial Finance and Programme Management Support Officer, at OCCAR-EA Bonn will present on day 2 on: 'ESSOR OC1 initial outcomes'.

Additionally, from NSSLGlobal GmbH; Peter Crafter and Zbigniew Perka, will present day 1 of the conference on: 'Communications - Current Trends and Technology Enablers'.

They will be joining a senior [speaker line-up of 21 communications experts](#), including senior military personnel in the J6 Command and Control Directorate, Polish General Staff.

Key topics of the conference agenda include: SatCom on the move, cyber electronic warfare interference, procuring new systems to collaborate with existing platforms, allied collaboration and more.

For those interested in attending 2018's Mobile Deployable Communications conference; the £400 early bird booking discount expires Tuesday 31st October. Booking(s) can be made online at: <http://www.mobiledeployable.com/einpr>

Plus, there will also be [two pre-conference workshops](#), held on the 31st January 2018:

- Workshop A: 'Selected Results from Applied Research to Improve Robustness in Military Tactical Networks', hosted by: Peter Sevenich, Head of the Robust Networks Research Group, Fraunhofer

FKIE

• Workshop B: 'Towards a Cyber Strategic Research Agenda: Cyber Research Challenges and Opportunities for the Military', hosted by: Major Salvador Llopis, Project Officer Cyber Defence Technology, European Defence Agency

The full conference and workshop brochure can be downloaded from the event website.
