

China Food-grade Phosphorus Acid and Phosphates Market Research Report

Market Research Report on the China Food-grade Phosphorus Acid and Phosphates Market

RAIPUR, INDIA, October 26, 2017 /EINPresswire.com/ -- Report Sellers has added a new market research report "[China Food-grade PA and Phosphates Market Report 2016 Edition](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

China Food-grade Phosphorus Acid and Phosphates Market Research Report

Chinas phosphorus [chemical industry](#) has experienced a rapid growth and extensive development before 2012. In recent years, under the combined effects of government regulation and market mechanism, Chinas phosphorus chemical industrial chain has been extended backwards and it has been on a period of fine phosphorus chemical industry.

As one of the important parts of fine phosphorus chemical industry, food-grade phosphorus acid and phosphates has enjoyed a fast development benefit from the high-speed development of food processing industry in China. In 2015, the capacity of food-grade phosphorus acid and phosphates in China was 2,000,000 t/a and 650,000 t/a respectively. Overcapacity has been a hot issue in Chinas phosphorus chemical industry, but the development of food-grade phosphates species, especially K phosphates, will be a new growing field and compound phosphates will meet a booming business opportunity in the future.
