Packaging Machinery Market Research Report

Report Sellers has added a new market research report "[Packaging Machinery Market- Forecasts from 2017 to 2022](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

According to the report, the packaging machinery market is projected to expand at a CAGR of 4.46% over the forecast period to grow to US\$60.415 billion by 2022, from US\$48.585 billion in 2017. Increasing demand for processed food and beverage products is boosting the packaging machinery market growth.

Moreover, escalating demand for multipacks, single-serve, and sustainable packaging is also significantly contributing to the global packaging machinery market growth. High labor costs and emerging adoption of automation will drive the demand for efficient packaging machineries across various end-use industries during the forecast period.

Competitive Insights: Prominent key market players in Packaging Machinery market include Bosch, GEA Group, Barry-Wehmiller, Krones, Coesia, ITW, and Ilapak among others. The [global Packaging Machinery industry](#) is highly competitive due to lack of product differentiation among large number of local and global suppliers.

Small vendors will face difficulties due to intense competition from global market players in terms of price, quality, durability and reliability. Leading market players are engaging in strategic partnerships to gain a larger global market share. In April 2016, GEA Group acquired Imaforni to become a market leader for sophisticated equipment for the biscuit industry.
