China Triazole Fungicides Market Research Report

RAIPUR, INDIA, October 27, 2017

/EINPresswire.com/ -- Report Sellers has added a new market research report "[China Triazole Fungicides Market Report 2016 Edition](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Triazole fungicides are the second largest fungicide category (after strobilurin fungicides) by market value globally, whose market value accounts for about 21% of the global fungicides total. In 2014, the global triazole fungicides market value reached USD3.4 billion, up by 9.6% compared with that in 2013.

China, the biggest pesticide supplier globally, has been playing an important role in the global triazole fungicides market. China currently can produce 16 kinds of triazole fungicides, more than 65% of which are exported. Some products export volume exceeds over 75% of their total output, including tebuconazole, propiconazole and flutriafol, etc. China has become the biggest triazole fungicides supplier in the world.

Driven by the products good control effect, the demand for triazole fungicides in China has been expanding in recent years, with both soaring consumption volume and market value. Ranking by market value, triazole fungicides have become the largest category of fungicides in China. China has become a major triazole fungicides consumer globally, whose market value accounts for about 6%-7% of the global triazole fungicides total.
