

H. Frances Reaves of Parent Your Parents to be Featured on CUTV News Radio

KEY BISCAWAYNE, FLORIDA, UNITED STATES, October 31, 2017

[/EINPresswire.com/](http://EINPresswire.com/) -- Many of us have parents who sacrificed and worked diligently so their children could have a better life. We (the children) are then faced with the challenge of how to make their parents' lives the best they can be as they age. This is where Parent Your Parents, a senior concierge services company, can be of tremendous help and support to face that very challenge.

Parent your Parents is a consulting firm, led by H. Frances Reaves and accompanied by a robust team of experts, that guides families through the myriad of elder care options in the United States. The company works on the non-medical side of senior care to advocate for seniors and teach adult children how to parent your parents.

“To parent your parent is undoubtedly challenging, both emotionally and logically. Parents are the people who raised you and it's difficult to change those roles. It's a common occurrence for children to ignore what's going on and avoid the confrontation,” says Reaves. “That's where Parent Your Parents and its team of experts step in. We have the professional and personal expertise to help you determine which elder care options are best for your family.”

“

Parent Your Parents offers the professional and personal expertise to help you determine which elder care options are best for your family.”

H. Frances Reaves

Frances was inspired to create Parent your Parents after navigating the process with her aging parents. She found that no one has the seniors' best interest at heart and if given the chance, these companies and individuals will take advantage of seniors and their families. Parent Your Parents not only provides senior care counsel with love and tenderness, but the counsel comes from experts in key senior care areas to ensure your family not taken advantage of.

“One parent almost always gets ill before the other” Frances explains. “If one has Alzheimer's or dementia the other parent will often hide it from the children. It is a difficult situation for both the parents and children, as it is hard to push forward in unison and you risk mutual resentment. The good news is Parent Your Parents assists families in having uncomfortable conversations to arrive at a

solution that is best for all family members involved.”

Parent Your Parents wants those children struggling to find the appropriate elder care for their parents to know that there are numerous options and resources for seniors. Parent Your Parents insists it is their job to find money and resources for the elderly, allowing children to feel confident that their loved ones are being cared for in the best way possible.

CUTV News Radio will feature Frances Reaves in an interview with Jim Masters on November 2nd and November 9th at 3pm EDT.
