## About Kiss Me Organics:

The company was originally founded by Anthony Codispoti, who, when on a mission to improve his own health, discovered the powerful benefits of tea drinking. He began collecting samples of tea from Asian farms and had them laboratory tested in the U.S. to find the purest possible tea leaves. The company continues to test all of its tea products, and the results of those tests are freely available to customers.

The Steep & Strain Ceramic Mug is available on Amazon.
