

# Renowned Photographer Art Wolfe Adds Portfolio Reviews to his Popular Workshop Schedule

*Don't miss this opportunity to get essential feedback on your work from a legendary photographer*

SEATTLE, WASHINGTON, USA, November 1, 2017 /EINPresswire.com/ -- Internationally acclaimed photographer Art Wolfe is a leader in providing photographic instruction in [seminars](#), [workshops](#), and now [portfolio reviews](#).

“When I first began my professional career in the 1970s, photography was very different,” says Wolfe. “There was no internet, travel to remote destinations was sketchy, and finding reliable guides was through word of mouth. Today, the challenge for both professional and amateur photographers lies in maintaining enthusiasm and creativity when the more obvious subjects seem to have been exhausted.”

“

Art Wolfe has spent a career mixing his passion for artful photography and his passion for the diversity, nature wonder, and humanity of our world...you could call Art the ultimate tour guide.”

## INSPIRING PORTFOLIO REVIEWS:

Wolfe will be offering portfolio reviews beginning in January 2017, and you can be among the first in line by getting on the no-obligation waiting list.

As any professional editor or curator will agree, you cannot be an unbiased editor of your own work. Getting your photography reviewed is one of the most constructive steps in elevating your craft. Bringing his fine art education and forty years as one of the most published nature photographers, Art Wolfe is eminently qualified to give constructive criticism.

Wolfe strongly believes that critique is a necessary part of the creative process in order to keep improving your art.

This service is not just for the advanced photographer. Photographers at all levels will benefit from a portfolio review by Wolfe. The real purpose is to show you where you are and where to go to learn the next step so that you can continue to improve. It will also provide valuable insight into a master photographer and artist's processes and methods.

#### ENLIGHTENING PHOTOGRAPHY TOURS:

From his years of experience, Wolfe knows the right places and the right time of year to photograph them. He loves nothing more than to share his enthusiasm and knowledge of the places, cultures, and creatures that inhabit the earth. When you travel with Wolfe, you will be in the field photographing side by side with one of the world's great photographers. He offers scheduled tours as well as bespoke tours around the world.

His last workshop of 2017 is an exclusive retreat on the Big Island of Hawai'i; 2018 includes stops in Glacier Bay, Mount Rainier, and South Georgia Island. One of his most popular tours is Abstract Astoria (Oregon), where Wolfe leads participants in the art of seeing. Art can be found in the unlikeliest of places, and Wolfe is extending this premise to "Abstract Atlanta."

#### PROVOCATIVE PHOTOGRAPHY SEMINARS:

"Photography as Art: Expanding Your Visual Imagination" is an all-day seminar created for photographers, designers and other creative individuals who want to make powerful artistic statements through photography. An inspirational and lively speaker, Wolfe conducts his seminars with unparalleled humor and creativity.

Wolfe currently has a nine-city seminar tour planned between December 2017 and June 2018, with stops in Dallas and Austin, Seattle, Raleigh, Tampa, Montreal, New York, Philadelphia, and Pittsburgh.

Wolfe has spent several years developing "Photography as Art" to help photographers stay fresh and maintain their curiosity while continuing to evolve their artistic style. Wolfe has the ability to tackle subjects difficult to articulate yet central to the creative process: inspiration, passion, vision and imagination.

During the seminar, Wolfe traces the history of photography using art history as a point of reference, exploring photography as an artistic, creative medium rather than just documentary. He explores how photography has evolved over the decades and probes the parallels between abstract expressionism and the emergence of photography as fine art.
