

Roger Stone Speaks About Why He Encouraged President Trump to Release the JFK Files

Exclusive Statement From the NY Times Best Selling Author and Political Rabble Rouser

NEW YORK, NY, USA, October 27, 2017 /EINPresswire.com/ -- Following his Appearance on SiriusXM's The Jim Norton and Sam Roberts Show yesterday, political advisor, best-selling author and media personality [Roger Stone](#), released this statement.

Roger Stone at SiriusXM on Thursday

As I predicted those in the US intelligence agencies who opposed the release of the JFK assassination documents mandated by law are now attempting to negate the president's decision redacting, censoring or holding back much of the material scheduled for release.

This became clear in July when the national archives released a small dump of JFK related material which was so redacted so as to make them useless to researchers and journalists.

This is the bureaucratic game now being used to essentially countermand the president's decision. I would urge the president to demand to see the material that was withheld and at least spot check the many reductions from the documents to determine whether the intelligence agencies are subverting the intention of both the Congress and the president.

The President has blanket legal authority to declassify any information Held by the Federal government. If after a careful review of what is actually released we determine that this is just a continuation of our intelligence agencies long term efforts to keep the American people in the dark regarding the events of November 22, 1963 we will appeal to the President to release all of the files.

The Intelligence Agencies have long held that disclosure would reveal their sources and operations even though most of those involved in 1963 are long dead. In view that both the intelligence agencies have dissembled about their ties to Oswald He appears to have been recruited by the Office of Naval Intelligence (ONI) and taught him to speak Russian at the military language school in Monterey., set up his "defection "Russia", never actually revoked his US citizenship although he had renounced it, and paid for the return of Oswald and his wife to the United states. Time of his death Oswald was a paid informant for the FBI with informant #179 and was being paid \$200 per month right up to the time of the assassination.

Deep State she could use a jacket and I'm pretty sure it'll be worthless so our position cannot be like

thisBureaucratic censorshipfears that the American people will recognize that they are doing the same things today they were doing 50 years ago, lying, covering up and leaking. The same government agencies involved with the take down of President Kennedy now seek to undermine the Presidency of Donald Trump.

Donald Trump is a very smart guy and he will be able to tell whether or not the intelligence agencies have been faithful to the mandate of the Congress here so here's what they have done is 35 whole then There really soon very that I'm driving school voice art Gallery baby trader soand the president in releasing the top-secret material held in government files regarding the murder of John F. Kennedy. If what the national archives releases
