Kitchen hood market is one of the rapidly growing markets in the kitchen appliances sector. Due to increase in the standard of living and changing lifestyle, the demand for designed and quality appliances is become an emerging trend. Various types of kitchen hoods are available in the market with wonderful range of features, with decorative kitchen hood fast replacing traditional ones. For many urban Indian households, modular kitchen is now an important part of interior that enhances the look of their kitchen. Hence, people are conscious while looking for a kitchen hood device and this has propelled the demand for various types of new products. Faber and KAFF are top two brands in the market, while Elica is making effort to win the trust of the Indian

consumers. The kitchen hood industry has been able to attract various players in the past few years, including both domestic and international ones. The penetration of kitchen hood devices is extremely low in India and this presents an enormous opportunity for new as well as existing players.
