TRUECHIP ANNOUNCES FIRST CUSTOMER SHIPMENT OF USB 3.2 VERIFICATION IP

Truechip, the Verification IP Specialist,announced that it has shipped early adoption version of USB 3.2 VIP

HSINCHU CITY & NEW DELHI, TAIWAN & NEW DELHI, TAIWAN & INDIA, October 31, 2017 /EINPresswire.com/ -- Hsinchu City & New Delhi, 31st October 2017: Truechip, the Verification IP Specialist, today announced that it has shipped early adoption version of USB 3.2 VIP. This announcement of shipment of the new VIP coincides with the commencement of MIPI DEVCON, Hsinchu City being held on 31st October 2017.

On this occasion, Nitin Kishore, CEO, Truechip, said, "The past decade for Truechip has been magnificent. Our Philosophy of P3 - Prompt Support, Proven Solution and Perfect Integration differentiates us from others. We are flexible towards varied customer requirements in terms of licensing models, customization of VIPs, ease of integration coupled with aggressive support".

"Our first customer shipment of USB 3.2 VIP here is reflective of the importance of Asia Pacific market in our global strategy", said Nitin. He further added "Truechip's USB 3.2 VIP supports double data rate for Gen 1 and Gen 2 using USB Type-C TM cable. With 20 gbps theoretical speed, USB 3.2 moves closer to Thunderbolt 3 speed. Not only will such high bandwidth, of over 2 GB/s, be useful to support 4K and 4K raw data rates at 60 fps but also help in faster data backups".

Speaking on the occasion, Mr. King, CEO, Grand Technology Inc. & Representative of Truechip in Taiwan said, "Brand Truechip has evolved into a major global player as the preferred organization for providing Verification IP products/services for many companies. The market in Taiwan and South-East Asia offers huge potential for Truechip's VIPs and we are confident that customers here will appreciate Truechip VIPs that are known for their quality, reliability and performance, across the world".

USB 3.2 Verification IP Features:

• XHCI controlled USB 3.2 VIP supports all four data rates with backward compatibility to USB 2.0 using USB Type-CTM cable
• Fully compatible with PIPE specification v4.4.1
• Provide SSC and ppm support for both Gen1 and Gen2 speed combinations.
• Support for enhanced configuration and error injection.
• Provides static & dynamic error injection capability.
• Supports dynamic & automatic masking in monitors.
About Truechip:
Truechip, The Verification IP Specialist, is a leading provider of Verification IP solutions, which aid to accelerate IP/ SOC design thus lowering the cost and the risks associated with the development of ASIC, FPGA and SOC. A privately held company with a solid and seasoned leadership, having global footprints and sales coverage across North America, Europe and Asia.
