

India Lead Acid Battery Market latest trends, forecast and market analysis

Market Research Report on the India Lead Acid Battery Market

REPORT SELLERS

India Lead Acid Battery Market Research Report

RAIPUR, CHHATTISGARH, INDIA,
October 31, 2017 /EINPresswire.com/ --
Report Sellers has added a new market
research report "[Lead Acid Battery](#)

[Market in India 2017](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Growth in the country's automobile industry and increased need for power backup solutions are playing a significant role in the market's growth. Increased focus of companies to achieve higher sales in the more lucrative replacement market is helping in strong value-wise growth in the market. Growth in various sectors that are highly dependent on uninterrupted power supply is also resulting in higher demand for lead acid batteries. Government initiatives to develop the renewable energy sector are resulting in the growth of the industrial battery segment. This segment is expected to grow at a faster pace than the automotive segment.

The lead acid battery in India is duopolistic in nature, with Exide Industries and Amara Raja Batteries controlling ~50% of the total market. While Exide has leadership position in the automotive segment, Amara Raja dominates the industrial segment. The two companies are also undertaking several capacity expansion projects to boost production to meet growing demand in the country. Apart from these two companies, other dominant players in the market include HBL Power Systems, AMCO Batteries, Celtek Batteries, Su-Kam Power Systems and Luminous Power Technologies. Although advancements in battery technologies have resulted in the development of more efficient types of batteries such as lithium ion and lithium polymer, the lead acid battery market in India currently faces little threat from them.

Browse through the complete description and in-depth TOC on "India Lead Acid Battery Market"

<https://www.reportsellers.com/market-research-report/Lead-Acid-Battery-Market-in-India-2017>

Report Scope

- Overview of the lead acid battery market, and historical and forecasted market size data over FY 2014 to FY 2020
- Overview of the various segments in the market and their historical and forecasted market size data over FY 2014 to FY 2020
- Trade analysis of lead-acid batteries in India
- Qualitative analysis of the major drivers and challenges affecting the market
- Overview of the competitive scenario in the market, and profiles of major public and private players operating in the market
- Key recent developments in the market

Reasons to buy:

- Get a broad understanding of the lead acid battery market in India, its key dynamics, and the current state of the market
- Gain key knowledge about the market that will help in informed decision making involving marketing, market-entry, market expansion and other business plans
- Identify key growth opportunities in the industry and make strategic decisions to benefit from it
- Understand major competitors? business and market dynamics, and respond accordingly

Companies Mentioned

Public Companies

1. Amara Raja Batteries Ltd.
2. Exide Industries Ltd.
3. HBL Power Systems Ltd.

Private Companies

1. Aegan Batteries Ltd.
2. AMCO Batteries Ltd.
3. Celtek Batteries Pvt. Ltd.
4. Luminous Power Technologies Pvt. Ltd.
5. Okaya Power Ltd.
6. Power Build Batteries Pvt. Ltd.
7. Su-Kam Power Systems Ltd.
