

Triple Bristle Introduces Triple Bristle Replacement Brush Heads for Sonicare®

Triple Bristle is pleased to announce the release of its latest product, Triple Bristle Replacement Brush Heads for Sonicare®.

DAYTON, TN , UNITED STATES, November 2, 2017 /EINPresswire.com/ -- Triple Bristle, renowned for its popular 3 sided sonic toothbrush, sold by Amazon, Walmart, dentists and hygienists everywhere, is pleased to announce the release of its latest product, Triple Bristle Replacement Brush Heads for Sonicare®. The Triple Bristle is the world's first 3-sided sonic toothbrush. With this new addition to its family of products, users of Sonicare® brushes will be able to take advantage of this new technology without having to invest in the actual Triple Bristle toothbrush.

The Triple Bristle Sonic Toothbrush was created by a dentist wanting to make a difference in the world of oral care. The product has become a top-seller on Amazon, earning high praise from customers, dentists and hygienists. The brush cleans the teeth in less time and more effectively than any other toothbrush on the market. Its perfectly angled bristles not only clean 3 sides of the teeth at once, they also clean the gum line and reduce the chance of periodontal disease. It's also safe to use on dental implants, crowns, bridges, veneers and braces.

The company has received many messages from Sonicare® toothbrush users inquiring as to whether the Triple Bristle Heads would be compatible with their toothbrushes. As a result, Triple Bristle decided to develop brush heads specially designed to fit Sonicare® toothbrush handles. The brushes fit the following Phillips ® Sonicare toothbrush handles: DiamondClean, Flexcare, Healthy White+, 2 Series Plaque Control, 3 Series Gum Health and Easy Clean.

It should be noted that although these replacement brush heads are manufactured by Triple Bristle they are not designed to fit the Triple Bristle handle. Replacements for the Triple Bristle Sonic

Toothbrush unit are available separately.

Phillips, Sonicare and the related toothbrush handle names are trademarks of Koninklijke Philips N.V. and/or its affiliates. Triple Bristle Inc. is not associated with and this product is not made by Koninklijke Philips N.V. and/or its affiliates.

Dentists recommend replacing brush heads every 3 months, or even sooner if the brush head becomes loose or frayed.
