

Delaware Integrative Medicine announces the first in a series of Educational Seminars focused on Regenerative Therapies

Dr. Henry Childers and Delaware Integrative Medicine is accepting reservations for its first Regenerative Therapy Seminar focusing on Stem Cell & PRP therapies.

GEORGETOWN, DE, USA, November 2, 2017 /EINPresswire.com/ -- The seminar is free and will be

I have been practicing medicine for many years. The last 5 have seen amazing growth in our understanding of how to harness our body's own capabilities to help repair damage, this is very exciting.

Dr. Henry Childers

held on Saturday, November 11, 2017 at 10:00am at the Fairfield Inn & Suites Rehoboth Beach, 19113 Coastal Highway, Rehoboth, DE 19971. Discover how you can benefit from these minimally invasive and surgery-free therapies. They have been shown to address a number of medical conditions and can contribute to improving your quality of life.

Dr. Childers will discuss the many innovative options of regenerative therapy available today, involving different approaches such as platelet rich plasma injections, stem cells from allograft and adipose fat tissue sources and how the application of these concentrated growth factors improve the body's own healing abilities. He will review some of the

research available today and answer questions you may have about regenerative cell therapies and how they may apply to you.

The seminar is free and advanced registration is required.

To reserve your seat, go to <http://www.delawareintegrativemedicine.com/>.

About Dr. Childers and Delaware Regenerative Medicine

Dr. Henry Childers is a board certified General and Cardiothoracic Surgeon with advanced certifications in both Ozone Therapy and Frequency Specific Microcurrent (FSM). Dr. Childers is a proud fellow of the American Academy of Ozone Therapy, and he serves as co-investigator on the Health and Human Services Institutional Review Board Ozone efficacy research study. He is actively involved with the following societies: The Orthobiologic Institute (TOBI), The American College for the Advancement in Medicine (ACAM), The International Lyme and Associated Disease Society (ILADS), and The International Federation for Adipose Therapeutics and Science (IFATS).

The clinic focuses on providing solutions for chronic pain, Lyme disease, ozone treatment, stem cell therapy, varicose veins along with helping people deal with bioidentical hormone issues and weight loss. If you or someone you know could benefit from stem cell or PRP injections, contact Delaware Integrative Medicine at 302-258-8853 for additional information or to schedule an appointment with Dr. Childers.
