

# LiveEdu - Powering Global Online Education With Blockchain Smart Contracts

*Next-generation Lynda.com Announces Official ICO Pre-sale for November 6th*

SAN FRANCISCO, CALIFORNIA, UNITED STATES, November 2, 2017 /EINPresswire.com/ -- LiveEdu.tv is launching an Initial Coin Offering (ICO). LiveEdu is building the next-generation online learning Lynda.com fully decentralized on the blockchain. They want to disrupt the \$46 billion online education market with smart contracts. Unlike many ICOs they have neither product development risk nor team risk as they already have a working product and an established team working together for two years.

There is the official pre-sale from Monday Nov. 6th to Nov. 20th and a public sale from Nov. 21st to Dec. 15th.

The pre-sale will be closed as soon as the pre-sale hard cap of \$500,000 is reached. The public sale will close within 48hrs of the first \$4M dollars being raised.

Currently, there is no online project tutorial learning platform which teaches college students and professionals who have passed the beginner stage how to build real products from beginning to end. The solution is LiveEdu - a live and video tutorial learning platform where content creators teach learners how to build real products from the fields of programming, game development, data science, design, VR & AR, AI and cryptocurrencies. Their product has already been used by over 1,000,000 people from 194 countries including USA, Europe, China, Russia, Korea, Brazil, and MEA. More than 13,000 streamers (content creators) have created over 200,000 hours of video content.

LiveEdu is led by founder and CEO Dr. Michael J. Garbade. Their core team members are the same since launch; Alex Zhukov, and Ilya Toka and Muhammad Shoab. They are a young team of business guys, educators, backend engineers, frontend developers and tech marketers with work experience from Amazon, General Electric, Photobucket, Rebate Networks, Lashou and Mail.ru.

EDU tokens can be purchased directly using ether (ETH), bitcoins (BTC), Litecoin (LTC), fiat (USD/EUR), or indirectly with other coins via Shapeshift. Bonus starts from 25% to 50%. There is huge bonus for large volume purchases this week. Contribute in the pre-ICO now and get a huge bonus!
