

fidientiaX Disruption of the Tradable Insurance Market is coming soon

fidientiaX is building the World's 1st Marketplace for Tradable Insurance powered by the Blockchain, ICO is starting on 6th November

SINGAPORE, SINGAPORE, November 3, 2017 /EINPresswire.com/ -- Since the announcement on October 15, 2017, by fidientiaX on building the World's 1st Marketplace for Tradable Insurance Policies powered by Blockchain Technology, the community around the project has grown exponentially over the last few weeks. The project has received a strong endorsement from various stakeholders and the community who seek the disruption potential of the project.

A significant number of the 2000+ members of the community was unaware that their Insurance Policy was actually a tradable asset and they could extract higher value by trading it in the open market. The team at fidientiaX has been contacted by various companies exploring how they could work with fidientiaX's Marketplace to expand their reach to potential customers globally and to get a better understanding of how blockchain technology is applied to solve the inefficiencies in the current market.

“

Growth is never by mere chance: it is the result of forces working together”

James Cash Penney

Over the past 2 weeks, fidientiaX has been working with various exchanges to list our tokens for trade after the end of our Crowd Contribution round, December 5, 2017. We are pleased to announce that we have managed to secure 2 exchanges that will list fdX tokens on the 6 December 2017.

The team behind fidientiaX has been working hard to

communicate our vision of the World's 1st Marketplace for Tradable Policies and came up with the following videos:

Introduction to fidentiaX: https://youtu.be/kUQ1VGwR_Q
fidentiaX Marketplace, How does it work?: <https://youtu.be/5658SlqCXd4>
fidentiaX Team Introduction: <https://youtu.be/gflxycOR7qY>
fidentiaX Q&A Part 1: <https://youtu.be/eVpgdN1mpbQ>

We are also very proud to share the article written by our Technology Partner, Roberto Capodiecì (Founder of Blockchain Zoo) on why he choose to work with fidentiaX on this project.

fidentiaX crowd sale will begin on 6 November 2017 with a bonus of 10%~15% for early contributors during the 1st 5 days and thereafter at 1 ETH = 500 fdX tokens. To participate in this disruptive project, please sign up for the whitelist at <https://token.fidentiaX.com> and join us in creating the World's 1st Marketplace for Tradable Insurance Policies.

About fidentiaX Ltd.

fidentiaX is a Singapore-based fintech startup that was launched in 2017 to disrupt the insurance market by leveraging blockchain technology to create an active market for tradable life insurance policies. The fidentiaX founding team consists of industry veterans with more than 35 years of experience in the banking and insurance industry. To develop the platform, fidentiaX has partnered up with blockchain development company Blockchain Zoo.

Furthermore, fidentiaX is creating a non-profit foundation for proliferating the adapting of blockchain technology for the insurance industry. We will be developing open-source technology to help insurance companies issue insurance policies directly onto the blockchain and leverage on the benefits of the technology.
