Global Synthetic Rubber and Fibers Market 2017

Report Sellers has added a new market research report "[Global Synthetic Rubber and Fibers Market Report 2017](#)" its offerings.

The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Asia was the largest region in the synthetic rubber and fibers market in 2016, accounting for around 50% market share. This was due to continued growth in the automotive industry which resulted in an increase in tire manufacturing. Moreover, the rapidly expanding footwear market catering to highly populated regions has led to a rise in demand of synthetic rubber and fibers. Americas was the second largest region accounting for around 30% market share. Europe was the third largest region accounting for around 13% market share.

Description

Where is the largest and fastest growing market for synthetic rubber and fibers? How does the market relate to the overall economy, demography and other similar markets? What forces will shape the market going forward? The synthetic rubber and fibers global market report from the Business Research Company answers all these questions and many more.

The report covers market characteristics, size and growth, segmentation, regional and country breakdowns, competitive landscape, market shares, trends and strategies for this market. It traces the markets historic and forecast market growth by geography. It places the market within the context of the wider chemicals market, and compares it with other markets.

The market characteristics section of the report defines and explains the market.

The market size section gives the market size (\$b) covering both the historic growth of the market and forecasting the future. Drivers and restraints looks at the external factors supporting and controlling the growth of the market.

Market segmentations break down market into sub markets.

The regional and country breakdowns section gives an analysis of the market in each geography and the size of the market by geography and compares their historic and forecast growth. It covers all the regions, key developed countries and major emerging markets.
