

Genocide for Gold & Oil : Victims Open Letter to Russia, China, UN Global Compact, Inter American Bank & The World.

The Miskitu Ancient Kingdom Cultivators Of The One Of The Most Naturally Abundant Region In The World Struggle for Survival.

WALNUT CREEK, CALIFORNIA,
UNITED STATES, November 6, 2017
/EINPresswire.com/ -- Ladies and
Gentlemen,

We address you today on a most urgent matter that is being perpetrated by the unlawful actions of Daniel Ortega and his Sandinista Government. We are well aware of the promises made to your Russian Government by Ortega. Perhaps you did not investigate the matter deep enough because it is our belief that if you did you would know that Mr.Ortega has no rights to the Miskitu lands! The Miskitu Kingdom that existed prior to the five republics, became free and is no longer annexed to Nicaragua or any of the five republics since 1957 when the treaties expired.

November 1st 2017, Siksa Yari Rio Coco “farmers” (Colonos) arrived via helicopters armed. They invaded and attacked Miskitu villages killing four, kidnapping two and seizing land.

“

We are asking for a hand up
not out!”

— Miskitu Nation

government of Daniel Ortega, Rosario Murillo, and the Sandinista Party, who send out Colonos from the Pacific who commit atrocities against us.

The true owners and decision makers are the Miskitu Peoples, Council of Elders, Royal Families (of all twelve tribes), and the traditional Miskitu officials and elected leaders. Not whomever Mr. Ortega deems fit to rule over us. We reserve the right to elect our own representatives. We refuse the ones hand-picked by the very illegal genocidal

We believe that wealth lies in communities and in the people’s ability to produce and consume their own products. So that the money transfer is for everybody and does not end up in the hands of a relative few. If you can’t buy what you produce then there is no incentive. it’s the spread of the wealth that creates ultimate wealth. The destruction of natural resources only contributes to the depletion of wealth. If we have the ability to replace the natural resources we use we would ultimately have a surplus and we go back later to reuse it. This sort of ecological and environmental preservation has always been the Miskitu (and many other “Indigenous” Nations) belief and what they’ve practiced for hundreds of years.

The lands and islands that Russia and China, all other foreign companies have ceased; the minerals and ecological resources that they mine, [deforest](#) and fish in on the Miskitu Coast do not belong to

Nicaragua. Mr. Ortega had no right to negotiate anything on the Atlantic Coast with anyone without the consent of all its inhabitants, traditional authorities, and heirs of the Miskitu Kingdom. Those lands belong to the people whose ancestors cultivated it and whose offspring have to continue to cultivate it even now.

These are not Roman times! We claim to have evolved and to be civilized so why is this neanderthal like leadership in existence. We have one world and we are all born in it and have the right to life, health, love, peace, justice, safety and a peaceful lucrative existence from our hard work.

There is no reason to kill us for money made from our natural resources. Anyone associated with the stupidity and reprehensible behavior of the Sandinista Regime is not a good business partner. We find it hard to believe that the Russians, Chinese, Inter-American Bank, UN Global Compact, B2Gold, HEMCO or any Multi-National Business would want to be associated with Daniel Ortega and his unlawful cowardly behavior. There is a simple logical way of doing good business. You could have more than what you already have an infinite wealth. Money is a medium of exchange. As a medium of exchange, such as the dollar has the velocity, that is to say, it moves from one point to another at any given time. To measure that from Las Vegas -Soviet Union -China- Africa and so on. The point is that if you stop that flow and accumulate it all in one place then nobody benefits from that. So the problem is not to produce but to spread. Spreading the wealth between the people and conserving/protectin that from which wealth is created and those who cultivate it is to have an abundance surplus and that is what a civilized intelligent free economy does.

We are letting the Russian Federation, China, HEMCO, B2Gold, UN Global Compact and the Inter American World Bank know what you are partaking in. We are informing you that by continuing to do business on the Atlantic Coast of Miskitu Kingdom, without consent from its peoples you are complicit in genocide.

On November 02, 2017, young Amelia Benjamin Suarez, a 17-Year-old girl, was killed by the Nicaraguan Army Officer. According to the testimony of the relatives, the young woman murdered was subjected to death threats and sexual harassment by the army...

Daniel Ortega, Rosario Murillo and the Sandinista Party send out Colonos from the Pacific who kill, rape and destroy. Mr. Ortega had no right to negotiate anything on the Atlantic Coast with anyone without consent of all its inhabitants,

150 nations (including the United States), defines genocide as follows:

[A]ny of the following acts committed with intent to destroy, in whole or in part, a national, ethnical, racial or religious group, as such: (a) Killing members of the group; (b) Causing serious bodily or mental harm to members of the group; [or] (c) Deliberately inflicting on the group conditions of life calculated to bring about its physical destruction in whole or in part...[Read More](#)

The Resolution 650 and IFO Convention Article 12 states: The peoples concerned shall be safeguarded against the abuse of their rights and shall be able to take legal proceedings, either individually or through their representative bodies, for the effective protection of these rights. Measures shall be taken to ensure that members of these peoples can understand and be understood in legal proceedings, where necessary through the provision of interpretation or by other effective means.

All things have a natural order. Our ancestors united and created civilization within the tribes, traditions, and cultures in one Miskitu Nation and we all honor and maintain what they started while still allowing room for advancement and change. We are human beings. We can't dictate the feelings of others but we must control impulses and actions. Rules and laws exist to do just that. They also exist to maintain fairness and peace. No one race or gender is superior just for the simple act of being born. Supremacy comes from skill, talent, education, product, character, and actions. The Miskitu government in exile is presently challenging the government of Nicaragua now led by Daniel Ortega and others under these very authorities in the United States District Courts. ...[Read More](#)
