

Global Hyperscale Data Center Market is Expected to Reach \$102.19 billion by 2023

Hyperscale Data Center Market Research Report

RAIPUR, INDIA, November 7, 2017
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Hyperscale Data Center](#) - Global Market Outlook (2017-2023)" to its offerings.

According to Report, the [Global Hyperscale Data Center Market](#) is expected to grow from \$20.24 billion in 2016 to reach \$102.19 billion by 2023 with a CAGR of 26.0%.

Hyperscale data center solution is designed to offer a single massively scalable compute architecture which is developed from individual servers called nodes that offer storage, software components and networking.

The key drivers impacting the demand for the market growth include open compute project, rise in demand for declining Capex and Opex, energy efficiency, quick developments in IoT devices, condensed cost of ownership and increased number of applications across various industries. However, power failure and storage issues for hyperscale data centers are the major factors restricting the market.

Some of the key players in global Hyperscale Data Center market include Avago Technologies, Broadcom Ltd., Cavium, Inc., Cisco Systems, Inc., Dell Inc., Ericsson, Hewlett Packard Enterprise Development Lp, Huawei Technologies Co., Ltd., Intel Corporation, International Business Machines Corporation, Lenovo Group Limited, Mellanox Technologies, Inc., Nlyte Software, Nvidia Corporation, Quanta Computer Inc. and Sandisk Corporat

What does the Report Offers

- Market share assessments for the regional and country level segments
- Market share analysis of the top industry players
- Strategic recommendations for the new entrants
- Market forecasts for a minimum of 7 years of all the mentioned segments, sub segments and the regional markets
- Strategic recommendations in key business segments based on the market estimations
- Competitive landscaping mapping the key common trends
- Company profiling with detailed strategies, financials, and recent developments

Report Scope

Global Hyperscale Data Center market has been segmented by data center sizes covered, components covered, applications covered, end user covered and regions covered

Data Center Sizes Covered:

Small and Medium-Sized Data Centers

Large Data Centers

Components Covered:

Services

Installation and Deployment

Maintenance and Support

Consulting

Solutions

Networking

Software

Server

Storage

Applications Covered:

Retail

Media and Entertainment

Research and Academics

Manufacturing

IT and Telecom

Banking, Financial Services, and Insurance

Government and Defense

Healthcare

Other Applications

End users Covered:

Enterprises

Colocation Providers

Cloud Providers

Regions Covered:

North America

US

Canada

Mexico

Europe

Germany

UK

Italy

France

Spain

Rest of Europe

Asia Pacific

Japan

China

India

Australia

New Zealand

Rest of Asia Pacific

South America

Argentina

Brazil

Chile

Rest of South America

Middle East & Africa

Saudi Arabia

UAE

Qatar

South Africa

Rest of Middle East & Africa
