

HYIPdog - Bitcoin HYIP Review & Monitor

Bitcoin HYIP Watchdog / Cryptocurrency High-Yield Investment Monitor

CARDIFF, UNITED KINGDOM,
November 8, 2017 /EINPresswire.com/ --
What is a HYIP?

A High Yield Investment Program (HYIP) is an online investment platform that offers very high returns on the initial capital that was invested. While some HYIP programs are genuine, the majority of these investment platforms turn out to be scams or schemes that either pay their users for a short period of time then disappear, or just attract investor capital and disappear. The cryptocurrency cyberspace made it even easier to operate, manage and run HYIPS since funds can be collected and paid in Bitcoin, and other cryptocurrencies without any regulatory framework, this is where HYIPdog takes command.

HYIPdog is a [Bitcoin HYIP monitor](#) watchdog that reviews high yield bitcoin investment programs and top hyip sites to help you better decide if a program is worth investing your BTC!

We analyze High Yield Investment Programs (HYIPS), cloud mining companies and provide general news regarding cryptocurrencies such as Bitcoin, Ethereum, Litecoin, etc or HYIP strategies & news that exposes scams.

We work with third parties that use website monitoring tools and we carefully analyze each program before adding it to our database.

Always remember to NEVER Invest with more than what you can afford to lose! HYIPS always have a gambling element, no matter how safe they claim to be
