

Phronetik named one of the "20 Most Promising Pharma & Life Sciences Tech Solution Providers"

PLANO, TEXAS, UNITED STATES, November 8, 2017 /EINPresswire.com/ -- Phronetik announced its recognition today as one of the top 20 most promising pharma and life sciences tech solutions providers of 2017 for its informatics services.

This award selection by a distinguished panel of CEOs, CIOs, VCs, analysts, and the CIORReview editorial board is based on Phronetik's informatics solutions that lead to advances in scientific discovery. Phronetik's informatics services consist of analyzing biological data such as genetic codes, sequencing and analysis, data abstraction, regulatory support, and adaptive research - to name a few. The company is excited to showcase its proprietary artificial intelligence platform, iConcordia™, that will assist in clinical decision making at the point-of-care. iConcordia™ is currently under development and is expected to be released in 2018.

"We are thrilled to be recognized among such prestigious organizations working to improve and positively impact the pharma and life sciences industry," says Tania Martin-Mercado, Phronetik's CEO. "This award showcases our commitment to transform healthcare and improve the patient experience."
