NEW YORK, NEW YORK, USA, November 8, 2017 /EINPresswire.com/ -- To commemorate one year since businessman and TV personality Donald Trump became the 45th President of the U.S., Chronicle, the new collaborative visual storytelling platform, has released an ongoing Donald Trump chronicle recording major moments in Trump’s history.

“The Donald Trump chronicle provides a factual visual record of the President from childhood through his time thus far as President,” said Steven McBride, Founder/CEO of Chronicle. “We launched this chronicle to provide a non-partisan record documenting and preserving this important story for the benefit of the greater community.”

The photos and information within the Donald Trump chronicle are crowd-sourced from the community and displayed on an interactive chronological timeline, creating a beneficial visual record and resource.

Anyone who has taken a photo of Trump and has a story of the moment to share can submit their photo to be included in the chronicle. With each photo, users can include details like title, description, location, and tags to document that moment in history within the larger story.

Chronicles and their individual images can be easily shared through social media. Users can easily embed the full Donald Trump chronicle into their websites and blogs using the free embed code or API.
