Description

WiseGuyReports.Com adds" Global Hadoop Market 2017-2021 "Research To Its Database.

Hadoop software is a framework for the distributed processing of huge data sets. Hadoop has high scalability and can be used for single servers and thousands of machines. Hadoop focuses more on detecting and handling failures at the application layer of the software rather than the hardware. Unlike the traditional systems, Hadoop can be used on multiple analytic workloads to run on the same data, at the same time.
