

North America to Dominate Global e-Learning Market Followed by Europe According to Latest Market Research Report

Global e-Learning Market Research Report 2021 (By Technology, End User and Geography) is now available from MarketResearchReports.com

LEWES, DELAWARE, DELAWARE, UNITED STATES, November 14, 2017 /EINPresswire.com/ -- E-learning is the rapidly growing market as education sector is actively increasing use of eLearning services due to its affordability, accessibility and mobility. E-Learning is also extensively used by corporate for training and development because of its low cost compared to the traditional training and availability of the high amount of quality content. Furthermore, governments and Public organizations are also utilizing e-Learning for the development and educational purposes.

Global E Learning market has grown rapidly in last five years with the staggering CAGR growth of 18.15%. Major driving factors for the E Learning market has been increasing expenditure on education, increasing digitization, ease of accessibility and rapidly emerging markets of emerging countries.

Currently, North America and Europe have the largest user base for E-Learning customers and almost all the big players in the industry are from this region only. Though markets of North America and Europe are not the fastest growing as they have already achieved maturity. Asia Pacific and Latin America are the third and fourth largest player, which are increasing at the above industry growth rate. E-Learning

“

North America is the largest consumer of the E-Learning based services in both the corporate as well as the educational segment, followed by Europe”

NAVADHI
