

Electronic Waste (E-Waste) Management Market is Projected to Grow a CAGR of Over 38.25% During 2017 – 2022

This report covers market characteristics, size and growth, segmentation, regional breakdowns, competitive landscape, market shares, trends and strategies

PUNE, INDIA, November 15, 2017 /EINPresswire.com/ -- Global [E-Waste management](#) market is expected to grow at a CAGR of 38.25% to grow to US\$9.880 billion by 2022, increasing from US\$1.956 billion in 2017. E-waste or electronic waste refers to the waste material created by rejected electronic devices. E-waste management is the process of establishing a value chain to ensure collection, recycling and disposing of e-waste. The major factor fueling the growth of the market is the reduced life spans of electrical, electronic and consumer electronic devices. Another factor supplementing the growth of the market is the need to adapt to latest technology. The main restraining factor is the improper e-waste management system in several parts of the world.
