

Pressure Sensitive Adhesives Market is projected to growth at a CAGR of 6.88%, reaching US\$13.126 billion in 2022

Market Research Report on Pressure Sensitive Adhesives Market 2017-2022

RAIPUR, INDIA, November 17, 2017
/EINPresswire.com/ --

Report Sellers has added a new market research report "[Pressure Sensitive Adhesives Market 2017-2022](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

Pressure Sensitive Adhesives Market 2017-2022

According to the report, Pressure Sensitive Adhesives market is projected to growth at a CAGR of 6.88%, reaching US\$13.126 billion in 2022, increasing from US\$9.049 billion in 2017.

Pressure sensitive adhesives are the adhesives which require some pressure to initiate bonding between the adhesive and the substrate material. The manufacturing process includes the manufacture of both the solid-state carrier materials and the coating components. It is very important for the growth of the economy as they are vastly used in medical solutions, graphics & reflective solutions, performance tapes, labeling & packaging materials, office & consumer products and others. A typical adhesive must have a perfect initial tack, an ultimate adhesion, and a proper shear resistance. However, labels, packaging, and healthcare industries are witnessing exponential growth, thereby boosting the demand for pressure sensitive adhesives.

Research Methodology

The first section of the report deals with detailed research methodology for calculating market size and forecasts, secondary data sources used and the primary inputs which were taken for data validation. This section also outlines various segmentations which have been covered as part of the report.

Companies Covered

3M,
Bostik SA,
Henkel AG
Company KGaA
DOW Chemicals

Report Segmentation

The pressure sensitive adhesives market has been segmented on the basis of adhesive technology, type of bonding, type, end-user industry and geography.

By Adhesive Technology:

- Water-based adhesives
- Rubber-based adhesives
- Acrylic-based adhesives
- Modified acrylic
- Silicone adhesives

By Type of bonding:

- Permanent
- Peelable
- Ultra Peelable
- Freezer
- High-Tack

By Type:

- Single-coated
- Double-coated
- Pattern-coated
- Transfer tape
- Self-wound

By End-User Industry:

- Labelling
- Packaging
- Healthcare
- Consumer Products
- Others

By Geography:

- Americas
 - North America
 - South America
- Europe Middle East & Africa
 - Europe
 - The Middle East & Africa
- Asia Pacific
- Market Players
