

Global Aircraft De-icing Market to reach \$1.43 billion by 2022 growing at a CAGR of 6.88%

Global Aircraft De-icing Market Analysis, Latest Trends, and Forecasts up to 2022

RAIPUR , INDIA , November 17, 2017 /EINPresswire.com/ -- Report Sellers has added a new market research "[Aircraft De-icing - Global Market Outlook \(2016-2022\)](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

According to the report, The Global Aircraft De-icing market is estimated at \$0.90 billion in 2015 and is expected to reach \$1.43 billion by 2022 growing at a CAGR of 6.88% from 2015 to 2022.

The factors such as increasing demand for passenger safety and comfort, increasing flight delays during the snow and maintaining safety airport operations during freezing weather conditions are driving the market growth. Development of the existing airports and rapid transformation of the airports around the world are offering growth opportunities to the major players involved. The foremost restraining factors, for the market include regulatory issues and requirements for lucrative initial investments. Optimizing the de-icing and anti-icing fluids and demand for environment friendly fluids are some of the essential challenges for the market growth. The growth of the aircraft de-icing market is mainly attributed by the succeeding airline industry and technological advancements.
