

High temperature fiber Market is estimated to witness CAGR of 7.56% over the period 2016 to 2021.

Market Research Report on High temperature fiber Market

RAIPUR, INDIA, November 17, 2017
/EINPresswire.com/ --

Report Sellers has added a new market research report “High Temperature Fiber Market: Latest Trends, Analysis and Forecast from 2016-2021” to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

High temperature fiber Market

According to the report, High temperature fiber market is estimated to witness CAGR of 7.56% over the period 2016 to 2021.

Heat degrades fiber at different rates depending on the fiber type, time of exposure and atmospheric condition. The high temperature fiber can operate at extreme temperatures and survive in harsh environments. Among other outstanding properties is its balance of tensile properties, high dielectric strength, stability in ionizing radiation and resistance to hydrolysis and chemical degradation. These fibers are designed for applications requiring high usable strength, excellent resistance to higher temperatures and hydrogen permeation, and improved fatigue resistance.

The key factor driving the high temperature fiber market is its wide range of applications. This fiber exhibits a cross cutting potential in various industries such as electric & electronics, security & protection, aerospace, automation and more, owing to its excellent properties like lightweight, high strength, higher operating temperatures and flame retardant ability.

Research Methodology

Firstly, the report provides a brief introduction of the market and deals with detailed research methodology for calculating market size and forecasts, secondary data sources used and the primary inputs which were taken for data validation. This section also outlines various segmentation which has been covered as part of the report.

Companies Covered

DuPont,
Teijin Limited,
Morgan Thermal Ceramics,
Toray Industries,
Royal Ten Cate,
Toyobo,
Kolon Industries,
Kamenny Vek

Report Segmentation

High Temperature Fiber Market has been segmented on the basis of fiber type, application, and geography as follows:

By Fiber Type

Aramid
Ceramic
Basalt
Others

By Industry Vertical

Industrial
Security and Protection
Automotive
Aerospace
Electrical and Electronics
Others

By Geography

Americas
North America
US
Canada
Mexico
Others
South America
Brazil
Others
Europe Middle East and Africa
Europe
United Kingdom
Germany
France
Others
Middle East and Africa
Asia Pacific
Japan
China
India
Australia
Others
