

Feed Additives Market is projected to grow to US\$29.129 billion at a CAGR of 4.98% over the forecast period 2017-2022

Market Research Report on Feed Additives Market

RAIPUR, INDIA, November 17, 2017 /EINPresswire.com/ -- Report Sellers has added a new market research report "[Feed Additives Market: Latest Trends, Analysis and Forecast from 2017-2022](#)" to its offerings. The report is an in-depth market study providing accurate market insights including the latest trends, forecast, competitive insights, etc.

According to the report, Feed Additives Market is projected to grow to US\$29.129 billion at a CAGR of 4.98% over the forecast period 2017-2022.

Feed additive is incorporated into animal feed to enhance the nutritional level of the feed. It is used to improve the quality and property of animal feed in order to augment features like palatability preservation, digestive performance, and others. Global feed additive market is largely driven by rising consumption of meat due to the mounting concern over the quality of the meat products. Increasing livestock population coupled with a shift of the livestock industry from unorganized sector to an organized one further propels the feed additive market growth.
